Take Control of Your Network

## With the Command IQ App

›› Check your internet speed.

Run bandwidth tests to monitor your network performance and give bandwidth priority to specific devices.

›› Easily set up a guest network.

Keep your network secure by setting up a separate guest network and password for your visitors.

›› View and manage all devices connected to your network.

Track a device's bandwidth usage, pause its network access, or disconnect it.

›› Set parental controls.

See what apps your kids are using and for how long, then establish boundaries by blocking inappropriate sites and content or setting usage limits.*

›› Get active threat protection.

View total threats, intrusions, and viruses blocked over time. You can even see protected devices and total protection uptime.

Available for an extra fee.
