FIBER INTERNET WITH SPEEDS UP TO 2 GIG

Who has time for slow internet? Not your busy household! Panora Fiber lit up our first fiber customer in December 2001—long before other providers even began thinking about it—and since then, we've continued to expand our fiber network in Iowa, connecting more customers to super-fast and reliable fiber internet.

Our Fiber Internet+ packages offer speeds up to 2 Gig (2,000 Mbps), so you won't have to wait around for files to download or deal with buffering while streaming movies or TV shows. Plus, there are four packages to choose from, starting at \$99.95/month for 200 Mbps/200 Mbps speeds. Just pick the speed level that best fits your internet usage and budget.

In addition to speed, our fiber network delivers incredible reliability with 99% uptime. If you've had internet service in the past that went down regularly, you'll be thrilled with Panora Fiber's reliability. After all, the best internet is the kind you don't have to think about and can simply enjoy using.

MANAGED WI-FI WITH GIGASPIRE BLAST ROUTER AND COMMANDIQ APP

You need the best Wi-Fi solution to have the best Wi-Fi experience. That's why every Fiber Internet+ package comes with Managed Wi-Fi for maximum coverage throughout your home, plus features to give you more control of your Wi-Fi network.

Managed Wi-Fi includes:

- **GigaSpire BLAST™ router** – Equipped with dual-band, Wi-Fi 6 technology.
- **GigaSpire Mesh BLAST extender** – Added if needed to expand your Wi-Fi coverage.
- **CommandIQ® app** – Lets you easily manage your network and its usage from any Android or iOS device. You can run a speed test and check your network performance, set up parental controls, set up a guest network, view all connected devices on your network, pause a device, and more.
- **Connection of your devices** – Our techs will get you ready to use your new Wi-Fi network.
- **Managed software updates and local assistance** – Enjoy a carefree Wi-Fi experience.

Support from Panora Fiber is free and available 24 hours a day, 7 days a week at 755-TECH (8324).

PROTECTIQ SECURITY FOR YOUR NETWORK AND DEVICES

Cyberattacks to home Wi-Fi networks are on the rise, making it even more critical to shield your connected devices from viruses, malware, malicious traffic, and more. That's why we include ProtectIQ® security service in every Fiber Internet+ package.

ProtectIQ provides an added layer of security, working quietly in the background on your GigaSpire BLAST router to continuously scan incoming traffic for threats and malicious content. If something looks suspicious, ProtectIQ automatically blocks it before it becomes a problem and sends you an alert.

OPTIONAL ADD-ONS TO FIBER INTERNET+ PACKAGES

- **ExperiencIQ® service for extra parental controls** – For \$4.00/month, ExperiencIQ lets you set the rules for sites like YouTube and TikTok and games like Roblox and Minecraft, manage your child's screen time, and monitor websites and apps used.
- **Outdoor mesh extender for strong Wi-Fi signals on your dock, patio, or deck** – For \$9.95/month, you can make the great outdoors even greater.
